CAPABILITIES: CrewFacilities.com is America's premier crew logistics and travel management company. We serve a variety of industries from construction, transportation, energy to government agencies including the Army, Navy, Coast Guard, Border Patrol, Department of Transportation. With thousands of rooms occupied each night throughout North America, and our years of facility management expertise, we understand the physiological and psychological affect that mobile work force personnel experience when working or training away from home. And how that can affect longevity, employee retention and productivity. Our proprietary facility vetting system insures a high standard of living for temporary and permanent field workers. In addition, we simplify the lodging process for our clients with "CrewFacts" our own crew logistics software and mobile application for iPhone and Android.

Crew Travel	Workforce Housing Planning, Development, Design
